Kamzičí skála (Kamzičí Crag) (900 m above sea level) is located about 7 km from Vrbno pod Pradědem. You can get to this beautiful rock lookout by following the green tourist sign from Železná, leading along Bílý potok (Bílý Stream).

A paved road leads to the lookout, along which it is possible to take a wheelchair or pram, but beware! The road goes uphill all the way.
