

Cesta kolem vody (A Path along the River)

 **5,7 km**

 **1,5 h**

 **0 m**

The Path along the River is a nature trail for pedestrians along the Opava River. It leads from the centre of Vrbeno pod Pradědem (from the roundabout towards Zlaté Hory) to the **VÍCE Ve mlýně** (MORE in the Mill) Educational Centre in Karlovice. In 2020, it was supplemented with educational boards and interactive elements that will acquaint you with life in water and its surroundings.

The trail is marked with a **blue-white sign**, leading between the train tracks and the river. You do not cross the railway tracks anywhere; cross a metal bridge over the river in Zadní Ves in Karlovice.

The path leads along the plain and is therefore undemanding. Families with small children can also admire the beautiful nature here.
