

Javorový vrch Mining Nature Trail

 **4 km**

 **12,2 km**

 **2 h**

 **224 m**

The Javorový vrch nature trail begins in Malá Morávka. It is a geo-trail at the site of the former iron ore mining activity. It passes through the Javorový vrch National Natural Monument. The trail has 16 stops with information panels. Along the trail there are old underground corridors and galleries entry to which is not only forbidden, but also marked as a hazard to life. In winter, these old mines are a refuge for bats.
